

EU70is

EU70is Super-Silent Generator

Superb reliability

Legendary durability from Honda's commercial grade OHV series 4-stroke engine offers easy starting every time.

Extended run time

Generating a maximum output of 7000W, or an extended run time of up to 6.5 hours at rated load on a single tank of fuel. Estimated 12 Hour continuous operation (when at half load).

FI System

Allows 15% increase in fuel efficiency while adhering to emissions regulations (Compared to EU65is).

i-Monitor®

Self-diagnostics and servicing information as well as monitoring output performance.

Super quiet

Noise-reducing casing and acoustic panelling, combined with Eco-Throttle™ greatly reduce operational noise.

Electric start

Hassle-free push-button engine start for effortless operation.

3 Year Warranty on engine only

Offering invaluable peace of mind, the engine comes with a Honda 3 Year Warranty for commercial use.

Inverter technology

Unique micro-processor delivers 7000W of super stable clean power essential for powering sensitive electronics and computers.

Eco-Throttle™

Automatically adjusts engine speed to precisely match the load to save fuel and engine life.

Oil Alert®

Prevents engine damage by automatically shutting the unit down if the oil drops below a safe operating level.

Maintenance

FI system eliminates the need of carburettor draining before storage.

Folding handles and transport wheel kit

Transport wheels allow a single user to move the generator around.

Parallel Operation

Ability to link 2 generators to double output via **optional** Parallel Operation Box.

The EU70is addresses the need for high-output, super-stable power within a compact and user friendly unit, ideal for the latest electronic products. Where noise is a critical factor, such as exhibition, broadcast or domestic use, the impressively low operational noise is ideal for domestic and commercial users alike.

i-Monitor® technology also provides the user with information on operation time, wattage and engine speed, as well as diagnostics for simplified servicing.

Other convenient features include push-button start, Eco-Throttle™ for superb fuel economy and extended run time, integrated transport wheels and folding handles to ensure the EU70is is a breeze to use.
